[www.pac-clad.com](http://www.pac-clad.com)

## Residential/Commercial Roofs, Walls & Trim

When considering a metal roof, discussions should focus on lifetime value, not up-front cost. The price of a metal roof, which comes with an **estimated lifetime of 50 years** if properly maintained, can be up to three times the installed cost of other materials. In return for the investment, the **made-in-the-USA** metal roof will last 3 or 4 times longer than a typical residential roof.

ALL METALWORKS

[www.allmetalworksinc.com](http://www.allmetalworksinc.com)

## At All Metal Works we insist on using thicker metal.

We begin with a selection of 29 gauge, 26 gauge, or 24 gauge metal, then add a durable coating of Valspar® XL or Kynar 500® paint. This combination works hand in hand to provide you with outstanding strength and unrivaled durability. This makes All Metal Work's roofing and siding the only thing you want to wrap your investment with.

### Products...

All Metal Works manufactures five different **roofing / siding panels** as well as a wide range of **standard and custom trims**.

### Warranty...

We offer our customers a comprehensive *NON PRO-RATED* warranty for 40 yrs. With **23 standard colors**.

**All Metal Works** is a locally owned and operated company.

## MetalWorks® Steel Shingles

MetalWorks steel shingles pair the latest looks with **G-90 steel**. Whether it's the traditional look of slate, the lustrous look of tile or the dramatic look of wood, MetalWorks shingles offer a beautiful choice for a wide range of residential and commercial applications.

- G-90 Steel Construction
- KYNAR 500®/HYLAR 5000®
- Can be used for Reroofing Applications. Install over up to two layers of asphalt shingles
- 100% Recyclable
- Four-way Locking System
- ENERGY STAR® Qualified
- **50-year Limited Warranty**
- **25-year Full Start Period**

## Single Ply Roofing Systems

### VERSIGARD

#### **Non-Reinforced Black EPDM**

Available in widths up to 50' and lengths up to 200' making it ideal for use in fully adhered and ballasted assemblies.

#### **Reinforced EPDM**

Manufactured with a strong polyester reinforcement completely encapsulated between two plies of EPDM and offer superior fatigue and puncture resistance.

#### **VersiGard White EPDM**

A non-reinforced EPDM membrane that is environmentally friendly and aesthetically pleasing. And can contribute toward LEED® credit requirements, is ENERGY STAR® qualified, and is CRRC certified.

#### **QAT Seam Technology**

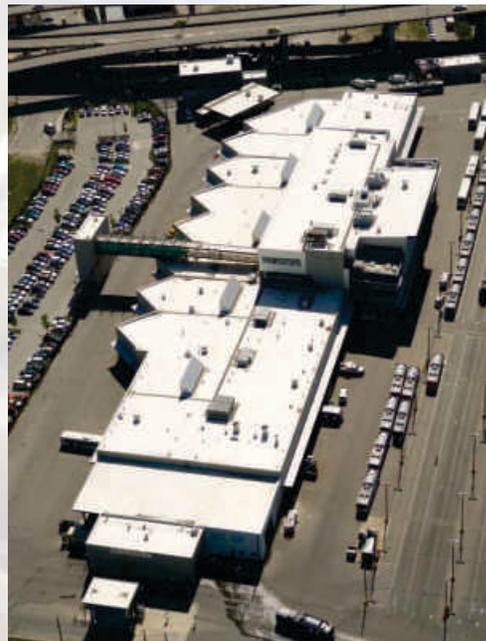

One of the most critical portions of a VersiGard EPDM installation can be made *faster and easier* with Quick-Applied Tape (QAT) Seam Technology, which factory applies the QA Seam Tape to the membrane, greatly reducing the time required for completing seams and minimizing your labor costs.

### VERSIWELD

### VERSIWELD QA

**VersiWeld TPO** membranes reduce the amount of energy required to maintain cool building environments. They also offer extreme weatherability and long-term performance.

**VersiWeld QA** (Quick-Applied) TPO combines the energy efficiency and durable characteristics that VersiWeld TPO provides with the ease of installation associated with a pre-applied adhesive.

### VERSIFLEX

**VersiFlex PVC** is specifically designed for long-term performance and is highly resistant to fire and chemicals including acids, bases, restaurant oils and grease.

**VersiFlex FRS PVC** utilizes a fiberglass-reinforced scrim. This dimensionally stable scrim is fully encapsulated and is designed for fully adhered applications in all areas, especially those with extreme temperature fluctuations.

### VERSIFLEECE

**VERSIFLEECE™ TPO, PVC & FRS**  
Ideal for re-roofing or new construction. Reinforced laminated TPO available in 100 & 150 total thickness.

EST. 1948

**(716) 876-5440**

# ROOFING VENTILATION

## OmniRidge® The Shingle-Over Ridge Vent

- Unique perpendicular baffles enhance air flow
- Louvers positioned closer to air stream to allow for better air flow
- Aerodynamically curved internal baffles are positioned to enhance the airflow from the attic space.

[www.lomanco.com](http://www.lomanco.com)

## Lo-OmniRoll® LOR-30

- Compact 30' roll is easy to handle
- Pneumatic nail gun or hammer installation
- Exterior convoluted baffles - incurved design
- Two coils of 13/4" nails provided
- Can be cut into one foot intervals

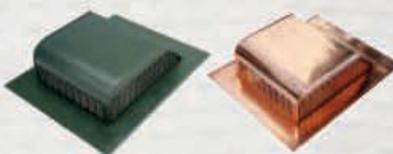

## Whirlybird® Galvanized Turbines

All aluminum construction, permanently lubricated upper & lower ball bearings

Adjustable to roof pitch up to 12/12.

## 750 Static Roof Vents

Designed to prevent roof discolorization. Louvered on 3 sides for greater air flow. Embossed finishes add strength and extend paint life.

- 750-E is a 750 with an extended flange size
- 750-S is a 750 with screen attached
- 750-G - heavy duty galvanized steel
- 750-GS is a 750-G with screen

## Omni Solar Powered Attic Vent

**ShingleVent II**  
SHINGLE-OVER RIDGE VENT

**AIR VENT INC.**

[www.airvent.com](http://www.airvent.com)

**SHINGLEVENT II** and **FILTERVENT** feature an **external baffle** for enhanced airflow and an **internal weather filter** for more complete protection against weather, insects and debris. Both provide 18 sq. inches of net free area per linear foot.

- Built-in end plug
- Durable, molded high-impact co-polymers keeps flexible at below-zero temperatures
- Colorfast pigments
- Lifetime limited warranty

**TheEDGEvent**  
SHINGLE-OVER INTAKE VENT

The **Edge™ Vent** provides proper intake ventilation for homes with little or no overhang.

- Internal baffles and filter provide weather protection
- Constructed of same material as industry-trusted ShingleVentII ridge vents

## Intake Vents

Continuous intake airflow at the roof's edge. Can be used to supplement existing soffit or under-eave vents.

## Ridge Vents

Designed with external baffles to protect attic from rain & snow. Internal filter helps keep out weather, dust & insects.

### DiamondDeck™

Synthetic, scrim-reinforced, water-resistant underlayment that can be used beneath shingle, shake, metal or slate roofing.

### Roofers' Select™

*Made to order for the true professional*

As a final layer of protection, this high-performance underlayment covers the entire roof after the WinterGuard™ application. It's reinforced with fiber glass to provide extra resistance to wrinkling.

- Available in four-square rolls (36" wide x 144' long)
- Reduces the likelihood of slipping for increased safety
- Lays flat and is extremely resistant to wrinkling

[www.interwrap.com](http://www.interwrap.com)

Ask your sales rep or visit the Interwrap website for details

### TITANIUM UDL 30

SYNTHETIC ROOFING UNDERLAYMENT

**Patented slip resistant nodular walking surface**

For use under all Metal, Tile, Slate, Shake & Shingle Roofing

- 6 times lighter & 20 times stronger than #30 felt
- Contributes to LEED® points, 100% Recyclable
- All temperature performance - 40°F to 240°F
- Synthetic construction inert to mold growth
- Cool gray surface, doesn't expand or contract

### Gorilla Guard® EVERFELT™

A high performance underlayment for steep slope roof applications. High performance features that out-performs typical organic felt by adding glass fibers. **Save time – and labor costs.**

- **36% lighter** than traditional organic #30 felt underlayment
- **28% stronger** substrate reduces need for more re-work before applying roof shingles
- Four-square roll means less handling time
- Superior water-shedding characteristics
- Lays flatter than traditional organic felt underlayment
- Atlas Signature Select® Roofing System Eligible

**Performance Products and Service**

## Composite roof underlayment designed to provide a secondary waterproofing barrier

A proprietary fiberglass mat reinforced, SBS-modified asphalt. The self-adhesive underlayment creates a watertight barrier by sealing to the roof deck and around nails and provides excellent traction and protection from UV degradation and weathering thanks to its granular surface.

[www.atlasroofing.com](http://www.atlasroofing.com)

### WeatherMaster® Pro-Grade Ice & Water

- Self-adhering and cold applied
- Soft-surfaced polyester face
- Increased traction
- 50-mil thickness
- No special adhesives necessary
- Direct-to-deck metal application
- High-temperature stability – 260°F
- UV protected surface – **90-day exposure**

### WeatherMaster® Ice & Water Roof 200 & 216

- UV Protected Surface – 45 Day Exposure
- High Temperature Stability – 240°F
- Self-Adhesive Backing Seals Directly to The Deck
- 55 Mil Thick, 38% Above Industry Requirement
- Dual Modified Asphalt Provides Superior Granular Adhesion
- Increased Granule Adhesion for Better Traction

### WeatherLock® Flex

Protection against water infiltration from the freeze/thaw cycle, wind-driven rains and normal water flow around eaves, rakes, valleys, vents, chimneys and skylights. Adheres around irregular shapes, inside corners and at sharp angles, even in cold-weather applications to 40°F.

[www.owenscorning.com](http://www.owenscorning.com)

### WeatherLock® G

**Granulated Self-Sealing Ice & Water BarrierSEAL**

Helps prevent damage caused by water migration. Engineered for asphalt shingles, wood shakes and quarry slate roofs.

One Roll: 33.3 ft. • Width 3 ft. • Gross Coverage 100 sq. ft.

### Polystick IR-Xe

Rubberized asphalt, fiberglass reinforced compound seals around nails. Split release backing film aids in easy positioning of sheets to maintain a proper line.

[www.polyglass.com](http://www.polyglass.com)

- Ideal for full-surface underlayment protection
- Designed for flashing details
- Exceptional ice & wind driven rain protection
- Fiberglass reinforced
- Sand and black mineral surface for skid resistance

### Polystick MU-X

Suitable for use with roof coverings and environments where a "high temperature underlayment" is desired. The film surface is slip-resistance and is reinforced with fiberglass for exceptional strength and thermal stability

## CertainTeed

[www.certainteed.com](http://www.certainteed.com)

### WinterGuard HT<sup>™</sup>

High Tack / High Temperature

WinterGuard HT<sup>®</sup> (High Tack, High Temperature) is an advanced waterproofing underlayment for shingle, metal, slate and tile roofs. **It is specially formulated to resist high roof temperatures under metal roofs.**

Weight: 54 lbs. per roll  
Dimensions: 36" x 65' ( 200 sq. ft.)  
Coverage: Two Square  
Thickness: 45 mils

## GRACE

[www.na.graceconstruction.com](http://www.na.graceconstruction.com)

### *A Better Alternative to Granulars.*

## GRACE Ice & Water Shield

For architects and roofing contractors, roofs are a source of everlasting concern. **Seventy percent of all construction litigation is related to leaks**, and every leak is a lost opportunity. Underlayments are the last line of defense in a roofing system.

Grace Ice & Water Shield<sup>®</sup> has protected the roofs of over 2 million homes, and been installed on marquee projects in 25 countries, since its introduction in 1978. This high performance solution provides superior performance at an excellent value.

## Grace Ice & Water Shield<sup>®</sup> HT

Meets the challenges inherent in metal roofs

A **high temperature self-adhered roofing underlayment** designed to deliver premium in-place performance for high temperature applications. It features an innovative and proprietary rubberized asphalt adhesive combined with a high performance polymeric film with UV barrier properties. The rubberized asphalt surface is backed with a fold-less release paper that protects its adhesive quality. During application, the release paper is easily removed, allowing the rubberized asphalt to bond tightly to the roof deck. The Ripcord<sup>®</sup> embedded in the adhesive provides the applicator a "split release on demand" feature, making it easier to apply in detail areas.

## COMMERCIAL ROOFING

### Insulation and Cover Boards

Installing Johns Manville insulation and a JM cover board under your roofing membrane is the easiest way to increase the energy savings and protection for a roof. We have you covered with our wide selection of cover boards and insulation products manufactured and distributed in facilities located throughout North America.

**Johns Manville**

[www.jm.com](http://www.jm.com)

#### NailBoard®

##### Polyisocyanurate Nailable Roof Insulation

Johns Manville Nailboard® is a rigid roof insulation board composed of a closed cell polyisocyanurate foam core bonded in the foaming process to either 7/16" (11 mm) or 5/8" (16 mm) oriented strand board (OSB) on one side and a universal fiber glass reinforced facer on the other.

#### Nail-Lok™ WD

Nailboard (Regular and Vented) Fastener. The extra-large star/spider head increases pull-through resistance and eliminates the need for plates or washers.

#### Vented NailBoard®

##### Polyisocyanurate Nailable Roof Insulation

Vented NailBoard® is a rigid roof insulation board composed of a closed cell polyisocyanurate foam core attached with spacers to 7/16" (11 mm) or 5/8" (16 mm) oriented strand board (OSB) on one side and a universal fiber glass reinforced facer on the other.

### ZIP SYSTEM® R SHEATHING & TAPE

- Energy Efficient Air Barrier
- Moisture Protection
- Structural Performance

Fewer steps result in 40% faster installation when compared to traditional housewrap and tape.

**ZIPsystem™**  
SHEATHING & TAPE

[www.huberwood.com](http://www.huberwood.com)

*Install the panels...  
Tape the seams...  
Done!*

GREEN PANEL: 7/16"  
RED PANEL: 1/2" and 5/8"  
All thicknesses can be used for walls and roof applications

New all-in-one insulated exterior sheathing panels eliminate numerous passes around the building that were once required to install multiple products, to meet thermal-management codes, while also accounting for controlling air leakage, water intrusion and providing structural integrity.

**(716) 876-5440**  
[weatherpanel.com](http://weatherpanel.com)

#### The Basics

*In stock lumber always on hand, ready for pickup or delivery.*

**Plywood** 1/2" x 4' x 8'  
**Sheets** 3/4" x 4' x 8'  
7/16" x 4' x 8' OSB

**Fire Retardant Treated (FRT) Wood Products**

## HYDROSTOP

[www.hydrostop.com](http://www.hydrostop.com)

### Roof and Wall Waterproofing Systems

Sustainable roof and wall waterproofing solutions that won't come out of warranty until you tear the building down.

#### ClearGuard Plus

Water repellent formulation for a durable subsurface, clear protective barrier. Protects all types of **masonry, brick, unglazed tile, grout, terra cotta, and stone**. Provides stain resistance and makes surfaces easier to clean.

#### FlexCoat

As **masonry and stucco surfaces** are primary points of entry for water, FlexCoat is carefully formulated to remain flexible and allow for movement while providing a high-quality water seal.

#### BarrierGuard®

Designed for waterproofing all types of masonry surfaces such as **foundation walls, concrete panels, retaining walls and moisture-retaining structures such as gutters, cisterns and concrete shrubby boxes**.

## KARNAK

THE SEAL OF QUALITY

## VELUX®

[www.veluxusa.com](http://www.veluxusa.com)

### The World Leader in Roof Windows and Skylights.

**Go Solar.  
Save Big.**

#### The Solar Powered "Fresh Air" Skylight

features a solar panel that captures any available daylight and uses it to recharge a highly efficient, fully concealed battery powered operator and control system. A rain sensor is built in to close the unit in the event that inclement weather arises while you're away.

#### Solar Powered Light Filtering Skylight Blinds

No longer is direct sunlight an issue with the light filtering solar skylight blind. Soft, diffused light is all that will enter your room. Also available in Venetian & Blackout styles.

### COMMERCIAL APPLICATIONS

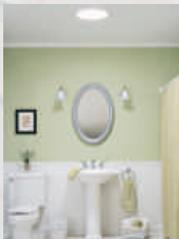

#### Pan-flashed skylight (CAP)

Built using a 1-piece welded aluminum & insulated curb that provides a sturdy leak-proof design. It is installed directly to the roof deck for the quickest installation available.

Custom curb mounted commercial skylights (CM)  
Maintenance free curb mounted skylights (CMA)  
Fixed curb mounted skylights (FCM)  
Commercial SUN TUNNEL™ skylight (TCR)

#### VELUX SUN TUNNEL™

**SKYLIGHT** - the most innovative skylight in the industry. The new product design delivers brighter natural light and the easiest installation available. 7 models available for residential and commercial applications.

## Sun-Tek®

SKYLIGHTS®  
*Let the Sunshine In!*

[www.sun-tek.com](http://www.sun-tek.com)

Featuring our most popular style, the **FGC**. Perfect for composition or asphalt applications, it sports a sleek style with an extra-low profile

### Completely Assembled & Designed to be Leakproof

- Incredibly Fast Installation
- Completely Assembled
- Leakproof - no calls backs
- Patented Water Dispersion Channels
- No step flashing required

After a rough opening is prepared, a roofer can install a Sun-Tek Skylight  
**- start to finish - in 15 minutes.**

### COMMERCIAL Polycarbonate Skylights

Curb Mount, Thermally Broken Curb Mount, Self Flashing & Self Flashing, Thermally Broken, with Insulated Glass models available.

Since 1935

## Monogram™ 46

The Natural Look of Painted or Stained Cedar

Whether it is a Victorian reproduction, a New England saltbox or a modern beach house get-away, we offer the rich look of natural cedar without the expense and heavy maintenance. You can create a home to be proud of with Monogram's designer palette of over 40 siding and trim colors.

### Three Classic Styles:

Double 4" Clapboard  
Double 5" Clapboard  
Double 5" Dutchlap

### Widest color section in the industry:

**33** low-gloss solid colors  
**8** low-gloss wood-tone blends  
**40** coordinating trim colors

Self-Aligning,  
Post-Formed  
Positive-Lock  
System

### Features:

- Heavy-Duty .046" thickness
- Patented STUDfinder™ is designed for accurate and secure installation
- RigidForm™ 220 Technology tested to withstand wind loads up to 220 mph
- CertiLock™ self-aligning, post-formed positive lock
- 3/4" panel projection
- Lifetime limited warranty

## Monogram 46L & 46 XL

Same Great Features as Monogram 46 with Longer Lengths which **dramatically reduces seams**.

On a wall that is 25' wide, there are approximately **57 laps** with a 12' panel

- with our 16' panel, **40 laps**
- with our 20' length, **26 laps**
- with our 25' length, **0 Laps!**

**Traditional length = 12 feet**

**Monogram XL16 = 16 feet**

**Monogram XL20 = 20 feet**

**Monogram XL25 = 25 feet**

### Two Classic Styles - Three Length Choices:

- Double 4" Rough Cedar Clapboard, 16'8" or 20' or 25'
- Double 5" Rough Cedar Dutchlap, 16'8" or 20' or 25'

## ENCORE *Great looks & affordable*

If you're looking for vinyl siding that combines great looks and affordability, look no further than Encore™. This high quality panel is attractive, easy to maintain and surprisingly economical.

- Natural woodgrain look
- Wind resistant rolled over nail hem
- 1/2" panel projection
- .040" thickness
- Lifetime limited warranty

### Four Popular Styles:

- Triple 3" Woodgrain Clapboard
- Double 4" Woodgrain Clapboard
- Double 5" Woodgrain Clapboard
- Double 4-1/2" Woodgrain Dutchlap

### What is Boral Versetta Stone®?

Boral Versetta Stone® is a mortarless, cement-based manufactured stone veneer with a unique, panelized design that is installed with mechanical fasteners.

- Installs with screws or nails
- No metal lath or scratch coat necessary to install
- Panels interlock with tongue & groove system
- Built-in 1/4" rain screen
- Pre-drilled weep holes allow water to escape
- No seasonal restrictions on installation
- Each panel covers 2 ft<sup>2</sup>
- 50-year transferable Limited Warranty

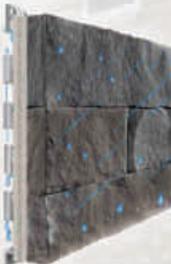

**6 Color in each style**

**The beauty of traditional stone masonry without the Excess Labor costs & installation time**

[www.boralamerica.com](http://www.boralamerica.com)

## STONEfaçade

**STAINLESS STEEL RAIN SCREEN**  
protects walls from moisture build-up

**Continuous fastening flange.**  
Simply screw it in place.

**Beveled perimeter.**  
Uninterrupted appearance.

**Mortar-less install. No mess.**  
No mortar, complicated training or mason skills are required.

**Fully-integrated rain screen.**  
3/8" stainless insert embedded for top-to-bottom drainage.

**Unique.**  
Every panel is unique. Cover 110 sf. without repeating pattern.

**Easy does it.**  
Three pre-mixed panel widths.

## CLIPSTONE

[www.myclipstone.com](http://www.myclipstone.com)

### ClipStone®

A brand new, innovative, easy-to-install stone veneer.

Each ClipStone slightly raised allows wall to breathe while providing a drainage plane.

Poinset LedgeStone

Tan ProStack

- Embedded Mounting Clips
- Stacks into place, one after the other
- Reversible corners for easy installs
- Cuts easily both ways

- Drip Ledge Sills for Windows or Wainscot Cap
- Drip Ledge Sill /Wainscot Corners
- Electric Outlet Box
- Light Box
- Universal 4" tall Corners
- Universal Trim
- Hearth Stones
- Mantel and Corbels

## Tando

[www.tandobp.com](http://www.tandobp.com)

### An all-star product portfolio.

Tando takes the very best of two great brands

### Novik and Exteria

and brings them together to better meet the evolving needs of the professional installer, remodeler and home builder.

Introducing

## TandoStone

In the beginning, there was stone, then came stone veneer then came TandoStone a lighter and more workable alternative.

Proprietary technology and processes that deliver a look and feel that is "as real as it gets." Provides pro-installers with a platform to deliver creative exteriors using conventional tools.

**Unparalleled durability that enhances longevity and brilliance.**  
**Quick and easy one-person installation.**  
**Eco-friendly.**

## VERSATEX<sup>®</sup> TRIM BOARD

[www.versatex.com](http://www.versatex.com)

- We Have it ALL**
- SOFFITS
  - FRIEZE BOARD
  - FASCIA
  - CORNERS
  - SKIRT BOARD
  - WINDOW & DOOR SURROUND

### We Cut Corners

Versatex gives you a full 5/4" board with a true 3/4" x 3/4" pocket to neatly accept fiber cement and other lap siding products.

VERSATEX 1-PIECE CORNER

- 1 1/2" material available in nominal 48" wide sheet.
- Can be used in direct contact with masonry
- Can be used in direct contact with moisture
- Does not require painting
- Resists insects, rot & weather

[www.boralamerica.com](http://www.boralamerica.com)

**Suitable for ground contact**, which makes it ideal for exterior trim applications such as fascia, door trim, soffits, rake boards and a variety of other exterior applications. Because of its high level of dimensional stability, there is no need to prime ends or field cuts.

## TruExterior<sup>®</sup> POLY-ASH TRIM

The first & only Poly-ash trim product, consisting of a blend of proprietary polymers & coal combustion products.

[www.jameshardie.com](http://www.jameshardie.com)

## HardieTrim<sup>®</sup> Boards

Several profiles, finishes & sizes available for any job including Rustic & Smooth Batten Boards, Crown Moulding, Vented & Non-Vented Soffits, Skirt Boards and more.

[www.fypon.com](http://www.fypon.com)

## Synthetic Solutions For Millwork & Trim

Fypon has the right stuff for virtually every millwork and trim project imaginable - from peak to plinth, offering award-winning **Polyurethane Millwork**

- Window and Door Trim
- Decorative Millwork
- Decorative & Functional Louvers
- Ceiling Medallions & Domes
- Spires and Finials
- Gable Pediments
- Balustrades & Columns
- Brackets, Corbels & Dentil Blocks

# SIDING UNDERLAYMENT

## Tyvek®

[www.dupont.com](http://www.dupont.com)

Whether it's a skyscraper or a single-family home, the building envelope is an essential line of defense against air, water and wasted energy.

### HomeWrap®

The world's leading house-wrap has the optimum combination of properties to deliver the best balance of weather protection, moisture management and durability behind residential facades.

### CommercialWrap®

3 vital areas as part of a building envelope system:

- Controlling air leakage
- Preventing water infiltration
- Allowing water vapor to escape

### Seal Around Windows and Doors With DuPont™ Flashing Tape

Engineered to withstand the rigors of the job site, including UV exposure, for up to 120 days. In addition to bulk water holdout, DuPont™ Flashing Tape helps control air leakage, where windows and doors interface with sheathing or the weather barrier.

## Kingspan®

Insulated Panels

[www.dupont.com](http://www.dupont.com)

Ideal for exterior insulation over wood sheathing and residing.

### Type IV XPS Insulation Board

Extruded polystyrene (XPS) construction, board will not absorb water, is not a food source for mold and is not subject to moisture-related damage and deterioration. An **R-Value of 5.0 per inch** of thickness makes it an excellent thermal insulator that increases the energy efficiency of your structures.

Choose between a square edge (CM) and an interlocking shiplap edge (SL) that helps reduce energy-robbing air leaks at seams and gaps.

[www.goadams.com](http://www.goadams.com)

### POLYCORE 5000 Extruded Polystyrene Foam

When the insulation value of a thicker product is not required, POLYCORE 5000 insulation is an excellent choice for use with **Vinyl, Steel or Aluminum Siding**.

### Economy Fanfold

In-Stock Selection of Economical Fan-folded Underlayments for your Budget Projects

(716) 876-5440

[weatherpanel.com](http://weatherpanel.com)

THANK YOU

FOR BUYING LOCAL

## AFCO INDUSTRIES, INC.

[www.afco-ind.com](http://www.afco-ind.com)

### ALUMINUM COLUMNS

Round & square fluted aluminum columns provide impressive Roman styling with durable, maintenance free finishes. Available in four colors, these load bearing columns are light weight and easy to install.

### FIBERGLASS COLUMNS

Pro-Cast fiberglass columns, centrifugally cast from fiberglass-reinforced polymers, producing a beautiful, tapered column, conforming to the Tuscan order of architecture. Easy to install and come with a limited lifetime warranty.

### ALUMINUM WRAP AROUNDS

Available in all of our column sizes. Supplied with aluminum split caps & bases. Installs in just minutes.

[www.hbgcolumns.com](http://www.hbgcolumns.com)

### PermaCast® Fiberglass

Load Bearing Columns

**Round** can be ordered fluted or plain, with or without the classic tapering of the upper two-thirds of the column.

**Square** are available in a variety of styles, including plain, fluted, applied or recessed panel and craftsman style.

**PermaLite®** columns are weather & insect proof and require very little maintenance. This **cost effective** line of columns comes ready for paint and carries the HB&G lifetime warranty.

### PermaWrap® Column Wraps

Made from Cellular PVC

Available in all sizes and styles – square or Craftsman– plain, fluted, raised panel, and recessed panel.

## CertainTeed

[www.certainteed.com](http://www.certainteed.com)

### Structural Porch Posts, Columns & Finishing Accessories

#### Featuring

- Pivoting mounting plate for easy installation
- Aluminum reinforced for rigidity and strength
- Load bearing
- Tie-down connection of porch post eliminates need for separate hurricane tie-down kit
- No overhead jacking required

### Certa-Snap® Wrap

- Specially designed for existing wood posts
- 8-piece system - 4 vinyl post sections plus 4 corner trim pieces
- Snap together for easy installation
- Available 4" x 4" or 6" x 6" in 10' lengths - can be field cut to any length

## VERSATEX®

[www.versatex.com](http://www.versatex.com)

### VersaWrap

Now, instead of fitting together 4 or 2 individual pieces of cellular PVC in the field, you can wrap smarter, with **one-piece column wraps**.

Our unique design features a product cut with 3 pre-mitered grooves that fold around the structural wood post and lock together with friction fit joints. The joints are inter-locking with a unique design to allow for additional surface area when bonding.

**Easy to install - peel protective tape off the corners and walk away.**

**No more field cutting to match the seams.**

[weatherpanel.com](http://weatherpanel.com)

## M-1® Universal Adhesive/Sealant

M-1 adheres to a wide range of construction materials including PVC, EPDM, most metals, wood, glass, masonry concrete, fiberglass and solvent-sensitive foams. It works in almost any situation requiring a sealant, yet it delivers nearly 400 psi shear strength and remains elastic after cure — up to 300% elongation, so it also performs as a structural adhesive.

[www.chemlink.com](http://www.chemlink.com)

## QUAD® Advanced Formula Sealant

OSI® QUAD® featuring the **widest range of colors in the industry**. Henkel color specialists work with building product manufacturers to ensure a perfect color match. An unlimited variety of colors mean superior performance on every job.

### WINDOW, DOOR & SIDING

Cold weather construction sealant for sealing around exterior windows and doors, fiber-cement & vinyl siding, PVC trim, roofing and gutters. Bonds without a primer to most common substrates.

- All-Weather, Superior Performance
- Permanently Flexible with 3x Stretch
- 20°F - 120°F Application
- Wet Surface Application
- UV- and Water-Resistant - **Will Not Yellow or Crack**
- Resists Dust & Dirt Collection

### HM270™ Silicone Sealant

Cures at room temperature, withstands temperature extremes, highly resistant to UV light.

### QUAD® MAX

- 24 Hour Fast Cure
- Resists Bubbling
- No Shrinkages

**5x Stretch & 50% Joint Movement**

## Professional Caulks & Sealants

For over 40 years, the Geocel brand of caulks and sealants have been giving pros an advantage with every job they finish. We offer solutions that meet your demands, from general all-purpose to job specific applications.

### 3300® Professional Grade Polyurethane Sealant

Adheres to Stone, Masonry, Ceramics, Wood, Steel, Kynar®, Aluminum, Asphalt and many other building materials.

### RP400® Construction Plastic Wet-Dry Surface Roof Cement

Adheres to asphalt, modified bitumen, and other common building substrates. 10 fl. oz. cartridge, 1-gal., 3-gal. lever-lock pail, 5-gal. lever-lock pail
